

July 25, 1966

Dear Joe:

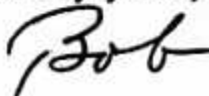

I did contact John Bellaire and he will be out Wednesday morning on the Burlington train that gets into Savanna at 11:00.

I will bring him to your office shortly thereafter, supposedly about 11:30.

Also, I talked with Norman Maclean about him, and Norman had nothing but favorable things to say about him. Norman said that he had not been in close contact with him the past year or so, but knew him quite well from his earlier work and still hears good things about him. In fact, Norman said, "We would be fortunate if we could get him."

Also, I talked about his living in the dormitory and he seems attracted to this notion.

Cordially yours,

Robert T. Blackburn
